Post 1 — Instant Settlement

Week 1 · Mon

You earned it Monday. Why are you waiting until next Monday to spend it?

Mal converts your USD to local currency in seconds*. Not 5 business days. Not "allow 3–7 days for processing." Seconds.

A licensed financial institution. Built for people who earn globally and shouldn't have to wait to use their own money.

** Settlement time — confirm exact timing with Product before publishing.*

Post 2 — Open-Market Rates

Week 1 · Thu

The exchange rate on the news. And the one you actually get. Spot the difference.

You already know the gap. Every withdrawal, every conversion — you're quietly handed a worse rate while someone pockets the spread.

Mal gives you open-market rates. The real rate. The one you deserve. And you choose when to convert.

Post 3 — Hold USD

Week 2 · Mon

Your client pays in dollars. Why can't you keep them in dollars?

With Mal, you can. Hold USD in your Global Account for as long as you want. Convert when the rate suits you — not when the system forces you.

Your dollars. Your timing. Your decision.

Post 4 — Islamic Values

Week 2 · Thu

A financial institution that handles your money the way your deen tells you it should be handled.

Shariah-compliant from day one. Not bolted on as an afterthought. Not a filter on top of a conventional system. The foundation.

Transparent. Ethical. Yours.

Post 5 — USD Card

Week 3 · Mon

Earning in dollars. Subscribing in dollars. Converting in between for no reason.

ChatGPT. AWS. Adobe. Figma. All billed in USD. You earn in USD. So why are you converting to local currency and back again just to pay?

Mal gives you a USD card. Spend your dollars as dollars.

Post 6 — Simplicity / AI-native

Week 3 · Thu

Your phone. Your ID. Done.

No branch. No appointment. No explaining what you do for a living to someone who's never heard of your platform.

Mal is AI-native — account open in under a minute. Because it's 2025 and opening a bank account shouldn't feel like applying for a visa.

Free to create. Join the waitlist, InshAllah:

Post 7 — Transparency

Week 4 · Mon

Every fee, upfront. Every rate, published. Every time.

No \$30 surprise charges. No "processing fees" buried in the fine print. No spread you only discover after the money lands.

With Mal, you see exactly what you're paying before you pay it. That's not a feature — that's the bare minimum. And we're surprised nobody else does it.

Post 8 — Global by Default

Week 4 · Thu

One account. 18 countries. Every border invisible.

Pakistan. Egypt. UAE. Turkey. Indonesia. Malaysia. KSA. And 11 more.

A USD-denominated Global Account with an IBAN, a card, and local-currency payouts — wherever you are. Mal was built borderless because your work already is.

Post 9 — Amanah / Trust

Week 5 · Mon

When someone trusts you with their money, the minimum is to not hide what you do with it.

Every dirham you earn is an Amanah. Mal treats it like one. Transparent rates. No silent deductions. No locking your funds without explanation.

A licensed financial institution. Built on the principle that your trust isn't a revenue model.

Post 10 — Instant Settlement + Open-Market Rates (combo)

Week 5 · Thu

Imagine this: you finish a job, and the money is in your local account — at the real rate — before you close your laptop.

That's Mal. Instant settlement at open-market rates*. No middlemen taking a cut. No 5-day hold. No "bank processing time."

Just your money, moved the way money should move in 2025.

Post 11 — New Player / What is Mal

Week 6 · Mon

There's a new name in finance. And it was built for people like you.

Mal is a licensed, AI-native financial institution. USD Global Accounts. Open-market rates. Instant settlement*. Shariah-compliant. 18 countries.

Not a payment processor. Not a middleman. A full financial institution — and the first one designed specifically for global earners in Muslim-majority markets.

Post 12 — Hold USD + Convert on Your Terms

Week 6 · Thu

The PKR dropped again. Good thing you didn't convert yesterday.

With Mal, you hold your USD and convert when it makes sense for you — not when the system decides. You watch the rate. You pick the moment. You keep the upside.

Your money shouldn't lose value because of someone else's timing.

Post 13 — Ethical / Pain Point

Week 7 · Mon

You lose money on every withdrawal. You know it. They know it. Nobody talks about it.

The spread. The hidden fees. The rate that's always worse than the one on your screen. It's not a bug — it's how they make money off yours.

Mal was built to end that. Open-market rates. Published fees. A financial institution that earns by serving you, not by skimming from you.

Post 14 — Full Stack / Future

Week 7 · Thu

Accounts today. Cards today. Credit and lending next.

Mal isn't just a wallet. It's a licensed financial institution building the full stack — USD accounts, cards, personal finance tools, and soon: lending and credit built for platform earners.

The financial home that global earners never had. Until now.

Post 15 — The Big CTA

Week 8 · Mon

This is the moment you've been asking for.

Hold your dollars. Convert at real rates. Get paid in seconds*. Pay for your tools without converting. No hidden fees. No frozen accounts. Shariah-compliant. 18 countries.

Mal. A licensed, AI-native financial institution — built for the way you earn.

The waitlist is open. Be among the first, InshAllah.

Calendar Overview

#	Wk	Day	Value Prop	Hook
1	1	Mon	Instant Settlement	You earned it Monday. Why wait until next Monday?
2	1	Thu	Open-Market Rates	The rate on the news vs. the one you get.
3	2	Mon	Hold USD	Your client pays in dollars. Keep them in dollars.
4	2	Thu	Islamic Values	Handled the way your deen says it should be.
5	3	Mon	USD Card	Earning in dollars. Subscribing in dollars. Why convert?
6	3	Thu	Simplicity / AI-native	Your phone. Your ID. Done.
7	4	Mon	Transparency	Every fee, upfront. Every rate, published.
8	4	Thu	Global (18 countries)	One account. 18 countries. Every border invisible.
9	5	Mon	Amanah / Trust	Your trust isn't a revenue model.
10	5	Thu	Settlement + Rates combo	Money in your account before you close your laptop.
11	6	Mon	What is Mal	A new name in finance.
12	6	Thu	Hold USD + Convert	The PKR dropped. Good thing you didn't convert.
13	7	Mon	Ethical	You lose money every withdrawal. Nobody talks about it.
14	7	Thu	Full Stack / Future	Accounts today. Credit and lending next.
15	8	Mon	The Big CTA	This is the moment you've been asking for.

Notes

1. Replace [WAITLIST LINK] with actual URL.
2. PKR references are Pakistan-specific — localize for Egypt, Turkey, etc.
3. For X/Twitter: hook + one line + CTA. For WhatsApp/Facebook: post as-is.
4. Always "Mal" — never "Mal Bank."
5. Suggested times: Mon 10am, Thu 2pm local time.

GUARDRAILS

Settlement time: Any "seconds" or "instant" claim (Posts #1, #10, #11, #15) must be confirmed with Product. Default to "in minutes, not days" if unverified.

FX rates: "Open-market rates" is approved. Never promise "zero fees" or "zero spread."

Regulatory: Public comms reviewed by AAS. No licence specifics without clearance.
